THE STAR

Before you begin
Read the entire guide carefully. The star is worked in a continuous spiral.

Make two circles in yellow

Round 1 — Work 5 sc into a MR. [5]

Round 2 — 5 inc. [10]

Round 3 — (1 sc, 1 inc) ×5. [15]

Round 4 — 1 sc, 1 inc, (2 sc, 1 inc) ×4, then 1 sc. [20] This makes the even circle demonstrated in an earlier reel by the original designer.

Cut the yarn and fasten off the first circle. Leave the yarn attached to the second circle.

Form the five points

Work each point in the round, using 4 stitches from each circle.

1. Place the circles with wrong sides facing each other. Work 4 sc on circle 2, then 4 sc on circle 1, joining the two sides of the star.

2. Work 4 sc and 2 dec. [6] Cut the yarn, leaving a tail to close the point with a yarn needle.

For the remaining four points, join yarn on the same side of the star each time. Repeat rounds 1 and 2 beside the previous point, making five points in total. Close every point with a yarn needle. Leave the star unstuffed and tuck the yarn ends inside.

Optional stuffed version
To prevent gaps between the points, at the beginning and end of round 1, work a decrease using a previously worked stitch and the first stitch of the new point. This bridges the space without adding stitches. Alternatively, close the gaps afterwards with a yarn needle and yarn.

ASSEMBLY

• With black yarn, embroider a U-shaped mouth between rounds 1 and 2.

• Embroider the eyes or attach safety eyes, leaving one stitch between each eye and the mouth. For this unstuffed star, the source secures the eye posts by heating and flattening them at the back.

• If desired, add blush to the cheeks.

• Use cold silicone glue to attach the tail to the back of the star, toward one side.
